Lincoln Geneva and Omaha Central Seem to Be Prospective Leaders in State Arena.

THREE FLOOR FIVES

#### CRETE SHOWS LOTS OF SPEED

Lincoln, Geneva and Omaha High schools appear to be the prospective leaders in the state basket ball arens, judging from the developments of the last week. Crete, however, runs close behind, having made a whirlwind week of it by defeating Coach Schisaler's first Donne college aquad on Wednesday evening and Hastings the following Friday. Omaha basket ball enthusiasts are as much at large as ever as to the real strength of the two local teams. Where it was expected that the packer squadron would win a close battle from the Bluffs team Thursday night, Patton's mon, as per usual, failed to come up snuff in the real test and allowed the dope to take its old postion. Judging from scores Central High has the stronger team. This is strengthened by the fact that they met Coach Puryear's seven-footers on their own floor across the river with a typical Biuffs crowd rooting against them. What each team will do against Nebraska City later in the season will probably show up their true relative strength.

Among the second class teams of the state there are three leaders, who stand clear above the horizon. Minden, the division No. 11 at the state tournament last year to the Hebron quintet, by a score of 1s to 7, is showing up in spien-did form. This team has cleaned up on several of the stronger teams in its vicinity, including the eratwhile promi-day of the lightweight who scales 135 pent Kearney five. Hampton's 22 to 15 win over Osceola on the latter's floor showed them up as considerable basket ball team. Geneva, considered the strongest team in the state to date, defeated the Osceola five, 32 to 7, the night before this game, however,

Fairmont Is Strong. Fairmont, a secondary town in Fillmore county, has shown considerable strength in defeating smaller towns in the central eastern part of the state. Arilington, the strong Washington county five, was defeated in one of the first

nament next March Indicate that the entrants will be divided into three classes -A, B and C-with the first class including eight or ten of the strongest teams of the state. The state championship will eventually revert to the contest between these eight first teams of the state. Hence it will be the object of those tearns that are classed among the best to maintain their good record and enter in this division. The selection will be made on a basis of the records made by the teams during the last season, the size of the town they come from and their past experience at state tournaments.

The restrictions will make the selections of the state leaders far more difficult this season than orthardly. Minden, with identically the same team that played the playing of every game and avoid into the finals in class B division of the tournament last year, has not lost a game this year after having played several strong teams. The smallness of the confirmed by the board of directors, town will count against its possible on trance in this case. On the other hand, look over the Toledo situation with a it would be unjust to allow Kearney, a much larger town, with not near the past record of Minden, to enter in the race for the state championship and first silver cup. Geneva and Crete are teams that of the Kaneas City club that he had will suffer under the same restriction chosed a deal with Joe Tinker, manager Geneva has defeated Crete by a decisive score, while Crete has defeated both of the latter players. Two Other Strong Teams. catcher. The price for the men he said Nebraska City and Alliance are sure leaders this year. Coach Crawford of the latter achool has several of his last

year's squad out for the game this year and undoubtedly will have a good squad. The fact that Allience is so far distant from any of the largest town of the state makes it almost impossible to gather a true idea of their relative strength until the team enters the state tournament. Last year this five was thrown out in the third round by the South High five. Other teams that show evidence of nough strength to be candidates of this first class are: Pierce, Norfolk, Fremont
